

## VENETIAN LEATHER

Produced by longtime automotive leather supplier Eagle Ottawa, Venetian leather provides the soft, supple interior befitting a Lincoln Black Label vehicle.

Less than 1 percent of rawhides worldwide meet the stringent softness and durability requirements for becoming Venetian leather, making it a truly exclusive Lincoln Black Label offering. Venetian leather is produced to reveal the natural characteristics of the hide, unique in its lightly finished, fine-grained texture.

Lincoln Black Label customers will find Venetian leather on the:\*

- Seating surfaces
- Center console armrest
- Door armrests

## DIAMOND-L AND LINKING-L PERFORATION PATTERNS

These exclusive Lincoln Black Label features are designed for the heated/cooled front seats of the MKZ and MKC.

Both patterns use perforations to create L-shaped wedges that are set in either a diamond pattern or a series of linking L's.
